HORIZON
FITNESS

A BETTER EXPERIENCE IS ON THE HORIZON

At Horizon Fitness, we focus on what matters in exercise equipment so you can focus on what matters in life.

Horizon Fitness is your partner. We are inspired by your commitment to living the best life possible, and we support your efforts by making the best exercise equipment possible. Our goal is to help you reach your goals.

We make exercise equipment that will stand up to your workouts for years. We invest in quality because your expectations and our standards are high. We all like things that last.

We also know that the best fitness product for you is the one that you will use. We want to help you identify what you need and what feels good so that you can buy something that fits your body and your life.

ACHIEVE MORE MANAGE LESS

VIAFITNESS.COM

WHAT IS VIAFIT?

Available on select Horizon Fitness® products, ViaFit™ is our exclusive wireless connectivity for your exercise equipment. It enables your equipment to share your workout data with your favorite fitness apps and other tracking devices.

WHAT IT DOES

ViaFit simplifies workout tracking. You never have to manually enter your workouts anywhere because your equipment does it for you.

Go to ViaFitness.com to track your efforts, set a goal or join a challenge. And if you're already tracking your fitness somewhere else? You just link those apps or devices, and ViaFit will send your workout data to them automatically as soon as your workout ends.

WHY IT WORKS

Tracking your health and fitness data can help you stay on course with your wellness plans. Also, sharing with friends keeps you motivated and accountable.

ViaFit makes it that much easier to capture your home workouts in the apps and tools you already use and to share them with the communities where you already belong. Plus, our ever-expanding network of partners means your options will grow over time.

Do what works best for you: Monitor your progress at ViaFitness.com or with your current tracking tools. It's your choice!

SELECT PARTNERS:

TREADMILLS

Horizon Fitness treadmills are made for walkers and runners of all fitness levels. They are durable, stable, easy to put together and simple to use. We carefully select components and features to offer the best overall package at each price point, and we never compromise on quality. You'll get a solid workout no matter what you choose.

THE HORIZON TREADMILL ADVANTAGE

Horizon Fitness treadmills feature exclusive technologies that make our products more comfortable, convenient and durable.

JOHNSONDRIVE
SYSTEM

Our digital drive system adjusts instantly to speed and incline changes, so you never feel the motor lag or surge. Johnson motors also run at low revolutions per minute, which minimizes noise. This keeps the motor cool, which is crucial for durability.

FEATHERLIGHT
FOLDING

You get the durability of a traditional treadmill and the space-saving convenience of a folding frame. Our hydraulic folding system operates effortlessly and facilitates easy storage between workouts.

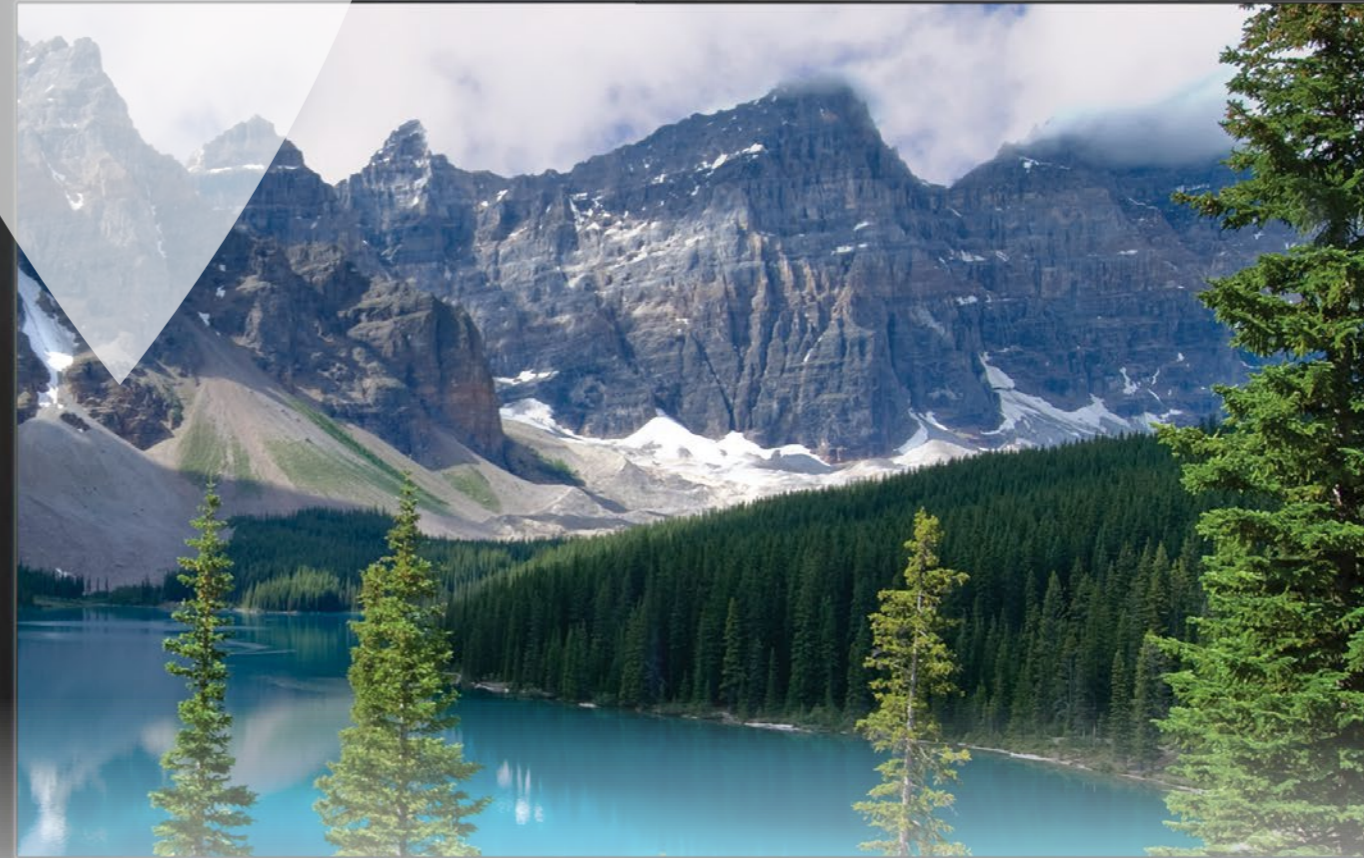

VARIABLERESPONSE
CUSHIONING

Just like a running shoe, Horizon Fitness treadmills use a three-zone system to give you the ideal amount of flex in all phases of your stride. More cushioning in front absorbs some of the impact where you land, the neutral zone in the middle transitions you through your stride, and the firm back of the deck gives you support where you push off.

INFINITYBELT

We integrate synthetic hard wax directly into belt fibers to completely eliminate the need for routine lubrication.

ESCAPE WITH PASSPORT

What if you could run through the American Southwest or Northern Italy any time you stepped on your treadmill? Or cycle through an Alpine meadow without leaving your living room? With the revolutionary Passport™ system featuring Virtual Active™ technology, you can.

The Passport media player syncs your exercise equipment to your TV so that you can run or walk as dynamic, high-definition video content is displayed on your television. The experience is further brought to life as you feel gradual incline changes as you go up and down hills or stairs. You will also hear the ambient sounds of your destination through your speakers or headphones.

The Passport media player is sold separately. Look for the Passport Ready logo to find compatible products. Learn more at PassportPlayer.com.

READY

ELITE TREADMILLS

When you take your workouts seriously, you need a treadmill that does, too. Horizon Elite treadmills are built for runners, so they keep up with you no matter how often you run or how hard you go. With unmatched performance and motivating programming and entertainment, Horizon Elite treadmills deliver on every level.

Features found on Elite treadmills:

- ViaFit connectivity for simplified workout tracking
- Cushioned, maintenance-free belt to absorb impact and enhance comfort
- Polar® heart rate monitoring to help you stay in your target zone
- Extended power incline range for greater workout variety and challenge

ELITE T9

The Elite T9 is built for high speeds, challenging workouts and lofty goals. The responsive digital drive system lets you maintain your rhythm with no lags or surges while you run. The Elite T9 features Virtual Active technology right on the console, making your workout less like exercising and more like sightseeing.

ELITE T7

The Elite T7 will sustain your fitness enthusiasm over the long haul. This premier running treadmill is designed for advanced training with features to keep you engaged in your workouts and focused on your goals.

Take your workout to exotic locales with Virtual Active technology, which displays immersive, forward-motion, high-definition videos on your console and syncs them to your workout. Two Virtual Active programs are included on the Elite T9 treadmill and E9 elliptical.

ADVENTURE TREADMILLS

The Horizon Adventure treadmills are great when you want to work in a work out at home. The sturdy frames give you the stability you need while you exercise and the convenience of folding equipment between workouts. Loaded with features that make your workouts more interesting, engaging and effective, the Adventure series will keep you moving toward your goals.

Features found on Adventure treadmills:

- MP3-compatible speakers so you can work out to your own music
- ViaFit connectivity for simplified workout tracking
- Simple, intuitive displays to help you track your effort while you work out
- Folding frame and front transport wheels for simplified storage

ADVENTURE 5

Built for performance, the Adventure 5 has an extra-long deck, a quiet yet responsive motor and ViaFit connectivity, giving you more control over your workouts and your training progress.

ADVENTURE 3

Easy to assemble, easy to use and easy to store, the Adventure 3 is a great way to begin your fitness regimen. You'll appreciate the quiet operation that lets you put your treadmill in any room of your home, and our exclusive three-zone cushioning system gives you the most flex where you land and the most support where you push off.

ENERGYSAVER
MODE

After 15 minutes of inactivity, Horizon products equipped with our Energy Saver™ feature switch to sleep status, which draws less energy.

T101

TREADMILL

This best-selling treadmill is a favorite for a reason. With 30 programs, multiple awards, 15-minute assembly and a folding frame, the T101 is a great balance of meaningful features, quality and value.

Features found on the T101:

- Easy assembly gets you moving in no time
- One-step folding frame for easy transport and storage
- Up to 10% incline and 30 programs for workout variety

ELLIPTICALS

Being fit feels great. Getting fit can, too, when you have the right equipment. An elliptical is a versatile, low-impact option for home exercise whether you're just starting out or have been exercising for years. And a Horizon Fitness elliptical is a smart choice because each of our models is designed to let you move fluidly and naturally. Everything from the step-on height to the handles to the pedal spacing is engineered for optimal ergonomics so that you feel good stride after stride.

THE SIXSTAR ADVANTAGE

Your elliptical should move the way you do. That's what our SixStar™ frame is all about. We identified the six key elements that deliver the most natural feeling workouts possible.

Ideal pedal placement

Overlapping pedal placement eliminates stress on hips and back.

Straight body posture

An upright body posture is the most comfortable and yields the fastest results.

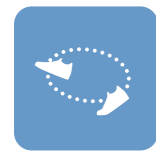

Low step-on height

Pedals placed low to the ground are easy to step on and off.

Optimal handlebar spacing

Grips are within ideal reach and distance for both small- and large-framed users.

A natural foot path

A flatter elliptical pattern closely mimics a natural running or walking motion.

Smooth momentum

The large drive-pulley ratio creates the smoothest, most efficient motion.

ELITE ELLIPTICALS

Horizon Elite ellipticals are built for performance. The heavy, balanced flywheel ensures a smooth motion and power incline lets you decide how intense you work out and which muscle groups you engage. The SixStar frame enhances comfort in every workout, and the advanced programming and entertainment features keep you engaged while you exercise.

ELITE E9

When you want advanced training features along with truly innovative entertainment, the Elite E9 is the perfect elliptical for you. The heavy flywheel keeps your motion smooth and fluid, and the large, touchscreen display lets you enjoy immersive, forward-motion Virtual Active videos that are synced to your workout.

ELITE E7

The Elite E7 is one of the best moves you can make when you're ready for more advanced training. Power incline adds challenge at the touch of a button, and Polar heart rate monitoring makes it easy to stay in your target zone.

EVOLVE ELLIPTICALS

There's no need to compromise with the new Horizon Evolve series. These compact, folding ellipticals feature a comfortable frame and a natural motion, so you are assured a workout that fits your home as well as it fits your body.

Features found on Evolve ellipticals:

- Easy three-step assembly
- One-step folding frames for easy transport and storage
- Ergonomic design and longer stride for a comfortable workout
- Innovative Cardio Compass™ display for clear, visual workout feedback
- ViaFit connectivity for simplified workout tracking

EVOLVE 5

The heavy flywheel, expansive programming and large, backlit display make the Evolve 5 perfect for serious training. Plus, the simple assembly, effortless folding and compact footprint make this elliptical as easy to own as it is to use.

EVOLVE 3

Simple assembly, one-step folding, a compact footprint and the most comfortable feel make the Evolve 3 one of the best moves you can make to improve your fitness.

FEATHERLIGHT FOLDING

You get the natural feel of a front-drive elliptical and the space-saving convenience of folding equipment. Our patented hydraulic folding system operates effortlessly and facilitates easy storage between workouts.

EX-59

ELLIPTICAL

Low step-on height, a thoughtful program assortment and multiple resistance levels provide a good balance of comfort, features and value on the EX-59.

Features found on the EX-59:

- Low step-on height for accessibility and security
- 10 programs and resistance levels for challenge and variety
- Oversized foot pedals for comfort and stability

BIKES

Feel good from the moment you start your workout to the minute you finish it. Horizon Fitness bikes are a smart choice for a high-quality, low-impact workout. Whether you're looking for performance, comfort, a cycling-class style experience or an open-road ride, Horizon Fitness has the exercise bike you want and the quality you expect.

ELITE BIKES

When you want to work out your way, at your intensity and without compromise, you want Horizon Elite. Built for performance, these exercise bikes deliver on every level. You get the Horizon Fitness quality you expect along with comfort and workout variety to keep you feeling inspired and engaged every time you exercise.

Features found on Elite bikes:

- Magnetic resistance brake system for a smooth, quiet pedal stroke
- Adjustable seats to help you find a comfortable riding position
- ViaFit connectivity for simplified workout tracking
- Contact heart rate grips and Polar wireless receiver to help you maintain your effort level and get the results you desire

ELITE U7

The Elite U7 upright exercise bike lets you ride hard and smart. The heavy-duty frame ensures a stable workout at any speed and the heavy flywheel delivers a smooth cycling motion.

ELITE R7

The Elite R7 is the perfect low-impact yet high-performance recumbent exercise bike. The step-through frame is accessible to a wide range of riders, the heavy flywheel delivers a smooth pedal stroke in every workout and the mesh seatback provides comfortable lumbar support.

COMFORT R

RECUMBENT BIKE

You can work hard without being hard on your body. That's why we made the Comfort series. These are the bikes that feel good whether you're going easy or riding strong.

Features found on the Comfort R recumbent bike:

- Step-through frame for increased accessibility
- Wireless heart rate receiver that works with innovative Cardio Compass display for visual exertion feedback
- Thoughtful storage to keep water and towels within reach
- Dual handlebar options and adjustable seat with lumbar support to help you find the most comfortable riding position

Step-through frame

Cardio Compass display

COMFORT U

UPRIGHT BIKE

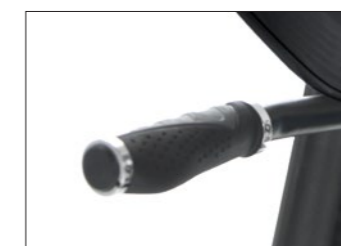

There are comfortable bikes for the road, so why not a comfortable bike for your indoor workout? When your exercise bike feels good, you'll ride it longer and more often. That means you'll get fitter, faster and with less risk of injury.

Features found on the Comfort U upright bike:

- Unique step-through frame for increased accessibility
- Innovative Cardio Compass heart rate display for visual exertion feedback
- Smart device rack to hold phones and tablets without blocking display
- Thoughtful storage to keep water and towels within reach
- Contoured Energy Fit™ pedals to keep feet in place and help you generate more power during intense rides

Tablet holder

Ergonomic cycling grip

INDOOR CYCLES

Indoor cycles bring an outdoor ride into your home, and our highly adjustable seats and handlebars provide a perfect fit for every workout.

ELITE IC7

Get an authentic ride and enjoy the feedback from advanced console features with the IC7.1, a premium indoor cycle built for performance.

M4

Bring the group cycling experience home with the M4. This indoor cycle is a great way to work in a workout when you can't get out.

OXFORD 5 ROWER

The folding Oxford 5 rower uses air resistance for a smooth, natural full-body cardio workout, and features like the pivoting console and front-panel storage keep your feedback in sight and your water within reach.

Features found on the Oxford 5 rower:

- Aluminum rail for a smooth, gliding motion
- Oversized footpads with adjustable pedal straps
- Wireless heart rate receiver for accurate performance feedback
- Battery-operated console for cord-free operation so you can use it wherever you like
- Easy folding and transport for compact storage
