S2CCO

Series II Cable Crossover

Interchangeable cable handles provide an unlimited number of possibilities for all experience levels, and the extra wide and tall mainframe provides you with easy access to an endless array of high, mid and low pulley exercises. The S2CCO Cable Crossover's pull-up station offers multiple grip positions—including Body-Solid's exclusive rock climbing grips. With dozens of independent height adjustments and 180° cable positioning for frictionless guidance in all directions, the Body-Solid S2CCO Cable Crossover is one of the most versatile and functional machines in the market today.
