Bar and Weights sold separately

SMR1000 Multi Squat Rack

The Pro Clubline SMR1000 commercial Multi Squat Rack system is the perfect machine for providing all size users a safe and comfortable platform to maximize squats and pressing motions. 1/4" solid steel gun rack style liftoffs provide multiple positions for a comfortable starting position. Rock solid adjustable safeties allow users to workout safely and maximize their load. The 2"x3" 11-gauge steel frame holds up in any heavy use environment. The back frame is extended to allow spotters easy access. The SMR1000 Multi Squat Rack has integrated pegs for strength bands for extreme plyometric training. The integrated chinning bar allows users to incorporate pull ups, chin ups, inversion boots, ab slings and other body weight resistance systems for amazing versatility.

Weight: 315 lbs.
Dimensions: 80"L x 71"W x 89"H
