T50 Walking Treadmill

LED Display Console

Ease of use is also enhanced with an easy-to-read blue LED display and three jumbo 1 ¾" information windows devoted to time/distance, speed and heart rate/calories. Oversized interface buttons make it easier than ever to make adjustments on the move.

T50 Walking Treadmill

The T50 Walking Treadmill features a 2" thick handrail that extends the full length of the treadmill, a belt-wide rear entry ramp and a starting speed of only 0.1mph. The thick 18.9" x 53" walking belt on the T50 provides added comfort with an ergonomically positioned contact heart rate monitor. Additional features on the T50 include a 1.5 HP Continuous Duty motor, high-quality aluminium foot rails and the ability for speed adjustments from 0.1 up to 5 mph in 0.1 mph increments.

Weight: 162 lbs. Dimensions: 77"L x 29.5"W x 53.5"H
