# TRX2500 TREADMILL

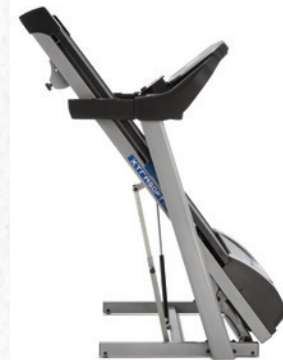

Start down the road to the best shape of your life with the XTERRA Fitness TRX2500 treadmill. The console display features an easy to read large 5.5" Blue Backlit LCD display with 24 preset programs for users of all fitness levels. Other convenient features include the quick access speed and incline buttons for quick workout changes, convenient handlebar controls for both speed and incline, speakers for your favorite tunes, and a cooling fan to keep you cool.

The powerful XTERRA 2.25 HP motor provides speeds up to 10mph while the users can also vary the large 20" x 55" belt to incline levels from 0-10% for maximum workout variety. When not in use you can fold up the treadmill with the Lift Assist frame design, which also includes a Safe Drop feature that slowly lowers the deck for added safety. Built as tough as the ultimate race it is named after, this XTERRA treadmill delivers performance and results!
