

TRX4500 TREADMILL

The TRX4500 features an oversized 7.5" bright blue backlit LCD display with 30 pre-set programs provides the variety needed to take your fitness to a new level. Other advanced features include the console quick access speed and incline buttons for fast workout changes, additional remote side handlebar mounted controls for both speed and incline, speakers for your favorite tunes, and a cooling fan to keep you cool.

The speed range up to 12 mph is powered by a smooth and quiet XTERRA 3.25 HP motor. The included chest strap heart rate transmitter and handlebar mounted hand pulse grips give you two ways to monitor your heart rate making your workouts efficient. XTRASoft deck cushioning technology, oversized 20" x 60" running surface, and 15% incline range are included in the long list of premium features. When not in use you can fold up the treadmill with the Lift Assist frame design, which also includes a Safe Drop feature that slowly lowers the deck for added safety.

With the XTERRA status comes our seal of approval with an impressive lifetime frame and motor warranty, 5 years deck, 2 years parts, and a full 1 year of in-home labor.
